The Fox finn

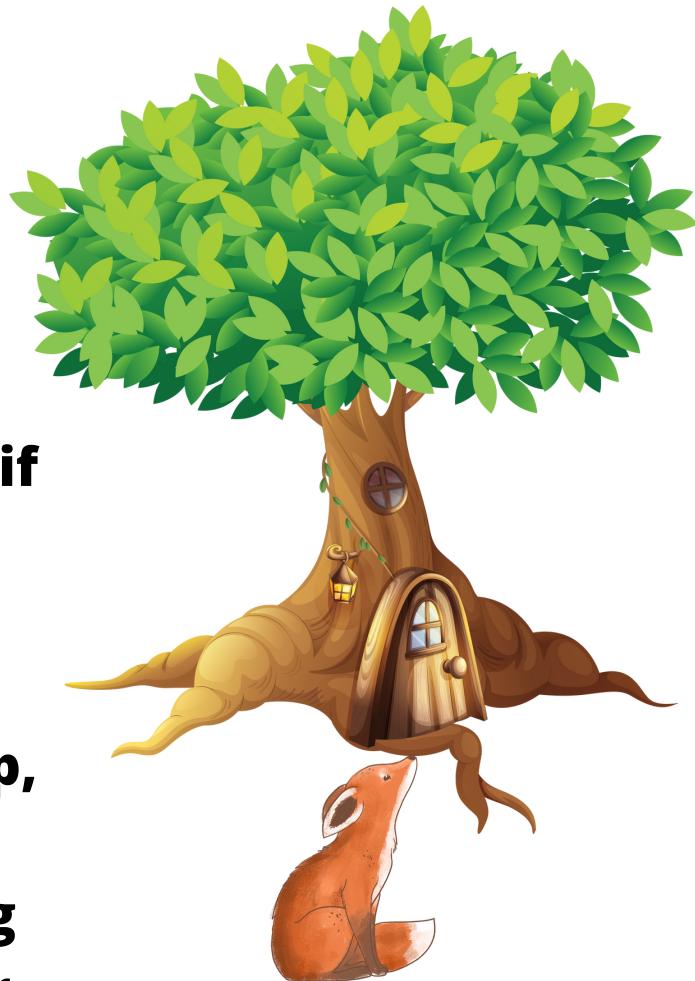

Once upon a time, in a magical forest, there lived a little fox named Finn. Finn was a curious and adventurous fox, who loved to explore the forest and discover new things.

One day, while he was out exploring, he came across a beautiful babbling brook. The water looked so clear and inviting that Finn decided to take a drink. As he was drinking,

he noticed something shiny at the bottom of the brook. He reached in and pulled out a golden key. He wondered what it could unlock.

Finn set off on a journey to find what the key belonged to. He asked all the animals in the forest if they knew what it unlocked, but no one had seen anything like it before. Finn didn't give up, he continued to search until he came across a big old tree with a small door at the bottom.

He tried the key and it fit perfectly. He opened the door and to his surprise, he found a treasure chest filled with gold and jewels.

Finn was overjoyed and wanted to share his discovery with all his friends in the forest. He went around the forest and invited all the animals to a big party to celebrate his discovery. Everyone came and they had a great time. Finn was happy to share his treasure with everyone and they all lived happily ever after.
